

Home Learning Ms. Barrett's Third Class 11th – 15th May 2020

Hiya boys and girls,

I hope you and your families are keeping safe and well. Below I have listed some of the suggested work for this week. Again, don't be afraid to ask me a question in the Ask your teacher a question box on Google Classroom. I will try and help as best I can. Don't forget to check google classroom for your two assignments for this week also.

English

- Library book reading 15 mins out loud per day
- Jolly Grammar pg. 62 and 63
- Reading Zone- Captain Gallant pg 24

Answer activities A, B, C, D

Focus mainly on answering A with full sentences. B, C and D can be done orally if it is taking too much time

- Just for fun I have added a Reader's theatre for you to read. I know how much you enjoyed these in school. You only need one other person to read with you. Try out different voices when reading it

Gaeilge

I will include the translated chapter again to help you out. Let me know how you are finding it you can do so over on google classroom and I can make some changes to help for next week

You can also access the book online if you are stuck for pronunciations of some of the words.

Go to FolensOnline.ie and click **Register**

Select **Teacher**.

Fill in a username, email address and password.

For 'Roll Number' use the code:

Prim20 for **primary book resources**

Click **Register**. You will then be sent an email (**check your 'Promotions' folder if using Gmail**) to activate your account.

- Abair liom pg 126 – 129

There are seven activities you could pick four or five to do. Maybe one a day and revision of the new words then on Friday. Some are trickier than others so have a look through them all first and see which you would like to do.

- I have included a yoga through irish powerpoint to help you focus before you begin your work you might like to try

Maths

- Please don't forget about your tables. Practice makes perfect. If you know these pretty well you could practice counting up in 3's and 6's

3,6,9,12,15,18,21,24,27,30,33

6,12,18,24,30,36,42,48,54,60,66

- Planet maths

Topic: 3D shapes pg 152- 155

I will include some 3D nets which if you are able to print them out you can design and make them but if you aren't not to worry it is not necessary.

History:

Life in medieval towns and countryside in Ireland PowerPoint
