

Week starting 25/5/2020

Hello girls and boys,

You are all working so hard! Keep up the great work. We are really enjoying seeing your lovely work on Google Classroom.

There is no obligation for you to print out any assignments; children can do their work on a page, in a copy or on their whiteboards.

As we've said previously, your feedback is important to us. Remote teaching is a learning curve for us all. Please, leave any questions or feedback you may have in the 'Ask your teacher a question' section on Google Classroom.

If anyone is having difficulty with Google Classroom, please refer to the help page at <http://www.prosperousns.ie/gcparents.html> or if you are still having trouble send an email to home.school@prosperousns.ie . We are here for you.

English

Spelling sheet – List 31 'ei'. Don't forget to practice using your spelling strategies and make some silly sentences.

Modern handwriting – 1 page this week. You all submitted some lovely writing last week. Keep up the great work.

Maths

Mental Maths: Continue with Table Toppers if you wish. This week we are uploading a Mental Maths Sheet for you to complete instead.

Don't worry if you are not on the tables/ spellings mentioned on the document, continue on from wherever you are and work at your own pace.

3D Shapes: Please work through the attached PowerPoint on 3D shapes. At the end of the PowerPoint, you are asked to collect some shapes from around your house and upload a photo to Google Classroom.

Religion

The month of May is devoted to Mary the mother of Jesus. Please find attached some activities you may like to try over the coming weeks.

<https://www.kandle.ie/wp-content/uploads/2020/05/My-First-Holy-Communion-Home.pdf>

SESE – The Water Cycle

Please watch these videos on the Water Cycle. The Go Noodle video requires you to do some actions to help you remember the cycle.

<https://www.youtube.com/watch?v=y5gFI3pMvol&t=21s>

<https://www.youtube.com/watch?v=KM-59ljA4Bs>

Then work through the PowerPoint attached, and complete the worksheet at the end. There is an optional activity for you to draw your own water cycle too.

Google Classroom assignments.

1. Upload a photo of the activity at the end of the Water Cycle PowerPoint.
2. Take or draw a picture of the 3D shapes you collected on your shape hunt.

Have a lovely week.

Ms McDermott and Ms Shortt.
